

Discover how railways changed the world

Explore giant halls of steam and diesel engines and railway legends including Mallard, the world's fastest steam locomotive. With over 200 years of history, a million intriguing railway objects, and free daily talks and tours, there is something for everyone.

Get onboard awe-inspiring locomotives, watch engineers at work, and get up close to our replica of Stephenson's Rocket. Our daily turntable demonstrations are a great opportunity to see engineering in action.

Soak up the atmosphere in Station Hall, home to Queen Victoria's favourite saloon and the world's finest collection of luxurious royal carriages. Climb on board historic carriages

and travel back in time to experience the working life of a station from the past as you discover fascinating stories behind the railways.

For a unique dining experience, relax in our Dining Car restaurant where you can enjoy leisurely lunches made from delicious local produce.

Make sure you visit our shop before you leave, where you can pick up a memento of your visit, unique railway inspired gift or something cute and cuddly to take home.
